A NEW PARTNERSHIP

In 2018, we entered into a partnership with French e-bike manufacturer NEOMOUV, and in September 2020, we announced the complete acquisition into the NEOMOUV ecosystem.

The acquisition followed a highly successful 2-year partnership with the group, at which time Juicy relished the opportunity to quadruple the number of bikes in their range. The merger paved the way for more efficient manufacturing, utilising the groups' factory in Portugal, improving quality and reducing our carbon footprint.

When you choose JUICY/NEOMOUV, you benefit from a collective 40+ years of experience producing Ebikes.

NEOMOUV

NEOMOUV is a leading French company that designs and sells electrically assisted bicycles established in 2003.

Our bikes are painted and assembled in Portugal, and offer a range of quality, reliability, simplicity, and power at a competitive price.

NEOMOUV bikes come in vibrant colours and are suitable for all uses.

Realization : RouleMarcel - 02/2024
